Profile

Self-driven Full-stack Developer with a background in computer science and web development. Recognized for quickly learning new information and communicating it in an easy to understand format. Proven ability to adapt to changing environments while meeting common goals.

TECHNICAL SKILLS

JavaScript, NodeJS, Express, HTML5, CSS3, Bootstrap, jQuery, React, Firebase, Git, MongoDB, MySQL, SQL, C++, Java

PROJECTS

Meet Up, Drink Up

- A web app that finds new people to grab a drink with based on beer preference. The interface allows users to 'Like' or 'Dislike' a beer. The app then finds users with similar matches and let's them chat in a chat window which uses Google Firebase for storing messages.
- Role: Backend developer in charge of creating routes and creating the chat page with logic.
